

Do not weaken Wisconsin's no-call requirements. If anything, it should be made tougher so politicians can't use it during the campaigns. We do not need bankers and especially credit card companies or others calling us and ruining our precious few hours at home each evening. Your job is to protect consumers, not cave in to the whims of big business. Wisconsin got most of the no-call requirements right, please try to respect the wishes of the public and keep our law as is.
